Straight Blade or Twist Lock

At KRE Electric, we've aligned ourselves with the top device manufacturers in the business.

We stock a supply of commonly used devices and from our central location in Mississauga, Ontario; you're never that far away. Our personalized service ensures you get the products you need when you need them.

Multi Purpose Entertainment Box

All our enclosures are loaded with Schneider Square D Circuit Breaker for easy access when you need a replacement.

The distribution boxes have all outlets individually controlled by circuit breakers and connections can be made inaccessible by the public.

Straight Blade Devices

Tough Nylon Body

Provides the Carnival Entertainment Industry impact and chemical resistance devices to ensure the show can go on. The line includes plugs, connectors, flanged inlets and outlets and flush mounting receptacles.

SAFETY

Stacked Distribution ESA-Spec-003

Distribution boxes shall be used in accordance with the requirements of their respective rating types with covers securely closed. When used outdoors or subjected to water, usage shall be as follows:

- a) No distribution box shall be placed in standing water or in a location likely to collect water in conditions of heavy rain or flooding; and
- b) Type 1 boxes and boxes with installed non-waterproof devices shall be covered to prevent intrusion of water, snow, sleet or slush; and
- c) All boxes shall be elevated a minimum of 150 mm (6"); and
- d) Outdoor use boxes shall be installed such that they will repel water as designed.

The dynamic environments faced by the carnival industry place high demands on the equipment and devices.

The KRE Stacked Distribution conforms to the ESA-Spec-003 Guideline and can be configured to input or output power to any NEMA devices that your situation requires.
